## About Creators' Legal

We were founded with one thing in mind. To help creators protect themselves and build their business the right way. As a lawyer and advisor to content creators for over 20+ years I found that most creators don't need lawyers, they just need to easily document deals. Lawyers mostly use standard contracts across industries. Over the course of my career, representing hundreds of filmmakers, musicians, authors, artists, etc. I saw far too many great ideas go wrong because of the lack of not just good contracts but any contracts at all. This leads to fights among collaborators, lack of the ability to monetize content and worse - courtroom battles over rights.

With Creators' Legal we have pulled back the curtain, making these contracts available to all creators. With the rise of the Creator Economy, it is a perfect time to make high level, quality contracts and legal solutions available to all creators at a reasonable price. Now, as a creator you can properly document deals, enhance your collabs, create confidently, grow your business and monetize your content. Stick with us, we are just getting started!

I hope you join us in our mission to help all creators do business right.

**Creators' Legal is the best way to protect you and your work, strengthen collaborations and create the right way.**
